

Instructions on how to sign up for certification tests through Prometric.
Using Java 2 or 3 as an example.

Go to the website www.prometric.com,

select your program under the “Information Technology (IT)” dropdown, for example, Oracle (Java is not an option),

then just follow the steps to select your test, location and payment method/voucher number.

If you would rather register over the phone, please call 800-795-3926, this is probably the best option.

If there are any issues, please just leave a message on the LCC certification line at 483-9665 or email lcccertificationtesting@lcc.edu and we will check into it.
