

Attending: Brian, Connie, Susie, Fred, Sharon, Camille

The meeting began with the coordination of the preliminary schedule for Fall 08. It was determined that the FT faculty have full loads within this model. Room usages were coordinated with Photo Imaging room requests. Adjunct load requests were accommodated as best as possible under the College mandate of offering only the number of sections that ran the year previous.

Sharon will assemble the schedule into an Excel spreadsheet, and distribute to FT faculty for review over the weekend. If correct, schedule will be submitted to Sheri for Dr. Lightner's examination on Tuesday, January 22.

Brian asked that all area curriculum subcommittees meet within the next two weeks to nominate and assemble advisory boards, and to begin a dialog in the groups of where they feel the industry and our relation as educators to it should be in five years. These opinions will be shared at a meeting of the faculty at large and distribution of the notes of that meeting to all ADM faculty and staff.

Fred concluded the meeting by informing us of union issues.
