CURRICULUM GUIDE

Avionics Flightline Technician Certificate of Completion

Curriculum Code: 1291 (Effective Fall 2008 – Summer 2013)

Aviation electronics, or Avionics, involves the application of electronics to aviation. In this certificate program, future Avionics technicians troubleshoot, maintain and install systems connected to navigation, communication and other critical electrical, electronic and ancillary systems required to keep aircraft flying safely. Focusing on advanced electronic theory and testing of avionics systems on aircraft and in the lab, the program culminates with on-site Federal Communications Commission (FCC) licensing preparation and optional testing. Designed for both future and current field Airframe & Powerplant Technicians and recent graduates of approved A&P programs.
