CURRICULUM GUIDE

Manufacturing Engineering Technology
Certificate of Completion

Curriculum Code: 1357 (Effective Fall 2011 – Summer 2016)

This program provides an introduction to manufacturing principles and prepares individuals to pursue entry-level employment and advanced training and/or an apprenticeship. Students receive instruction in the use of two-dimensional engineering design graphics, computer numerical control programming, manufacturing processes, tools for production, and engineering changes. Employment possibilities include entry-level positions in engineering firms, consulting firms, and manufacturing companies that make automotive, defense, special machinery, and medical components, to name a few.

PREREQUISITES

Students should see *Course Descriptions* or *Course Offerings* for course prerequisite information. See the *Assessment and Placement Testing* section for skills assessment and advising information.
