Board Members Report – Michigan Legislature Resolution

Trustee Pelleran presented the following Michigan Legislature resolution to the Board:

The Board of Trustees of Lansing Community College resolves as follows:

WHEREAS, the people of mid-Michigan have a 50-year investment in Lansing Community College; and

WHEREAS, Lansing Community College exists so that the people it serves have learning and enrichment opportunities to improve their quality of life and standard of living; and

WHEREAS, Lansing Community College's strategic goals include being accessible to students and other stakeholders, contributing to the economic vitality and quality of life of the region and state, valuing employees as its greatest resource—striving to be an employer of choice, operating as a fiscally responsible institution, and enhancing the ability of its students to succeed in meeting their learning goals; and

WHEREAS, Lansing Community College is the third largest community college (in enrollment) in the state of Michigan and has provided state-of-the-art facilities in Lansing, Delta Township, East Lansing, Howell, and St. Johns for students to meet their learning needs; and

WHEREAS, more than 32,000 students are enrolled each year at Lansing Community College and the College has more than 3,100 employees, including 2,125 faculty, 650 staff, and 403 student employees; and

WHEREAS, students enjoy access to nearly 2,500 classes during the days, evenings, weekends and online to support their desires to acquire associates degrees, certificates of specialization, prerequisites to transfer to other institutions of higher learning, and personal enrichment; and

WHEREAS, area stakeholders – including taxpayers, contributors to the Foundation from individuals, business and labor, students, faculty and staff – over the past seven years have increased their contributions by 25% to Lansing Community College to meet the changing learning needs of the community; and

WHEREAS, Lansing Community College's total 2007-2008 operating budget is \$120 million with the primary sources of funding being property taxes (34%), tuition and fees (40%), state support (23%), other revenue (3%); and

WHEREAS, the state of Michigan provides nearly one-fourth of the revenues to support the operations of Lansing Community College; and

WHEREAS, a revenue shortfall in the state of Michigan last year led the state to delay one month's payment to Community Colleges; and

WHEREAS, the recently enacted Community Colleges Budget for 2007-2008 not only provided sufficient funding for the distribution of the delayed payment (\$2.6 million to LCC), it also provided a one-percent increase in state aid to community colleges (this brings LCC's base appropriations total to \$29,183,800); and

WHEREAS, the Community College Budget also continues the collaboration of the Michigan Department of Labor and Economic Growth with Community Colleges to implement an accelerated entrepreneurship curriculum to provide students with the skills and knowledge needed for creating their own businesses; and

WHEREAS, the Legislature appropriates additional funds and encourages community colleges to expand their current nursing education programs and increase nursing education program enrollments to sustain existing programs by: assisting with high operational costs; reducing attrition through counselors, mentors and better assessment to ensure program completion; purchasing equipment and technology to increase efficiency and program capacity; and retaining and acquiring qualified faculty in an increasingly competitive recruiting market; and

WHEREAS, the Legislature also continues the at-risk student success program with a grant of \$143,800 to Lansing Community College to assist at-risk students with the necessary developmental and preparatory instruction (at-risk students include: those who are placed in developmental courses as a result of standardized testing or as result of being unable to make satisfactory academic progress, may be diagnosed with a learning disability; or require English as a second language assistance); and

WHEREAS, the Legislature recognizes the critical importance of education in strengthening Michigan's workforce and encourages community colleges to explore ways of increasing collaboration and cooperation with four-year universities, particularly in the areas related to training, instruction, and program articulation; now, therefore, be it

RESOLVED BY THE LANSING COMMUNITY COLLEGE BOARD OF TRUSTEES, that we appreciate Governor Jennifer Granholm and the Michigan State Legislature for honoring their promise to provide community colleges the payment they delayed from the last fiscal year; and be it further

RESOLVED, that we applaud our state lawmakers for ensuring a one-percent increase in the state's commitment to community colleges as well as additional funding for priority programs that promote at-risk student success, entrepreneurial development, and enhancement of nursing careers—this

commitment will help Lansing Community College to deliver effective programs to area students that provide learning and enrichment opportunities to improve their quality of life and standard of living; and

NOW THEREFORE, BE IT FINALLY RESOLVED, that a copy of this resolution is transmitted to Governor Jennifer Granholm, and to the members of the Michigan Legislature.

MOVED by Trustee Pelleran and supported by Trustee Hollister to adopt the State of Michigan Appreciation Resolution.

Strategic Update Report

Banner Update

Mr. Jack Bergeron, Banner Project Manager, reported that he gave the Trustees an Executive Summary and a power point presentation that is on file with the official Board meeting materials.

Mr. Bergeron gave the following Banner Implementation update:

- The Banner project needs assessment came from the 2006 SunGard key findings of the technology assessment.

- The first order of business was to create a project definition document by the banner implementation team. This document outlines the scope of the project and identifies the risk of the project.
- When looking at the scope, cost, schedule and quality project dimension, the team decided that there were two main parts that needed constraints. This was identified as the scope and the quality. The team wanted to keep the scope of the project at a minimum while making sure that the quality of the project was at a maximum.
- Mitigation responses to potential risks:
 - Utilization of external resources to alleviate skill and personnel shortages
 - Encourage delegation, use of SunGard User Liaisons and use of additional resources, and backfill positions (15)

He stated that the team is working through these challenges and have made great strides in the implementation task and will continue to work effectively to complete this effort. He reported that the remaining time does not allow them to complete the entire required implementation task including training, testing and documentation to ensure the level of quality, integrity and confidence required

Discussion followed.

Action Item – Finance Bids

President Cardenas presented the following bid for the Board's approval:

- The Photography Building Roof Replacement 2007 in the amount of \$98,017. The recommendation was to award the bid to Bornor Restoration, Inc from Lansing, MI.

MOVED by Trustee Pelleran and supported by Trustee Smith to approve the Professional Development Leave, Emergency Management Policy, PTCTU Contract and Bids.

Roll call vote:

Ayes: Hollister, Pelleran, Proctor, Rasmusson, Smith, Lavery

Nays: None

Absent: Canady

Motion carried.

Action Items – Budget Reconciliation and Update

Ms. Fisher stated the following proposed budget amendments for fiscal year 2008:

- Tuition and fee revenue is projected to be approximately \$0.6 million less than budget. While enrollment year over year is flat, changes to the mix of in – district and out – of district students along with increases in course fees have pushed revenue closer to the budget.
- State Appropriations have been appropriated for FY08 with the recent state budget settlement. We were conservative with our projections and did not anticipate a recovery of last year's delayed payment and also anticipated a possible cut in base funding. The College has now recovered the delayed payment of \$2.6 million. The state has also appropriated a funding increase of 1% over our base or \$1.3 million more

than was anticipated in our budget. As a result, state appropriations in total are currently at \$3.9 million over budget.

- Employee Benefits are anticipated to be under budget as a result of the adjustment downward in the MPERS rate that was part of the state budget settlement. The original budget included a rate of 18.6% and this rate has been adjusted to 16.7%. This rate is projected to increase to over 19% in the next fiscal year.
- Services & Supplies are anticipated to be over funded by approximately \$0.6 million largely due to an overestimating of telephone and printing costs. (See FY07 above)
- Banner backfill in the FY 07 budget was to be funded from the General Fund. These dollars were not all used and we are proposing that the unused balance be rolled into the FY08 Budget. This is \$0.6 million and is a move from one year to the next and will not impact fund balance projection as of the end of FY08. (See FY07 above)
- The backfill funding for FY08 is included in the Plant Fund budget.
- Facilities – Auxiliary Fund – 2007 is a request due to the timing of this cash transfer. These funds were not transferred in FY07 and this adjustment accounts for the transfer in FY08. (See FY07 above)
- Contingency is being increased to account for the favorable variances created by the above budget adjustments. The College is not requesting use of these funds at this time so that they may be reviewed in the context of long term plans.

Discussion followed.

Catherine Fisher presented the following Budget Adjustment Resolution to the Board:

The Board of Trustees of Lansing Community College resolves as follows:

WHEREAS, the C.P.A. firm of Maner, Costerisan & Ellis, P.C has completed the annual independent audit of Lansing Community College for the fiscal year – ended June 30, 2007; and

WHEREAS, the State of Michigan has finalized appropriations bills for Community Colleges for Fiscal –year ended June 30, 2007; and

WHEREAS, the Administration has reviewed budget projections for the Fiscal – year ended June 30, 2007; and

WHEREAS, By – Law 1.10.1 requires that “The Administration shall operate within approved budget allotments and policy restrictions; no allotment shall be deemed a mandate to spend. The Board must first approve any expenditure in excess of an approved budgetary limit. At fiscal year-end, the Board shall return the balance of credits in the operating budget to the general fund for reappropriation; and

Chairman's Report - President's Evaluation

Chairman Lavery reported that last month the President gave the Board a packet regarding the accomplishments she has made since she has been the President. He stated that there had been discussion about the President's evaluation and the instrument that the Board currently uses. He stated that this is the same method and process that has been in place since his serving on the Board. He further stated that Trustee Smith requested to receive the President's accomplishment presented at the October meeting and that there was discussion about conducting a formal evaluation.

Chairman Lavery reported that James Humphries has gathered information on other Community Colleges processes and tools used to evaluation a President. He stated that as the Board moves forward with the Presidential Search, the

Presidential candidates will probably ask how they will be evaluated and what that will look like. Samples of Mr. Humphries research were given to the Board.

Chairman Lavery asked the Board if they wanted to move forward with the President's evaluation on this evening and that the President has requested it be done in closed session.

Trustee Pelleran stated that the Board should honor the request of the President's choice to have her evaluation in closed session. She stated that the material that was presented, by Mr. Humphries, is separate from the President's evaluation.

Trustee Smith stated that the information presented was not for the President's evaluation and that the President's evaluation will be based on the method used in the past. She stated that at the last Board meeting there was discussion about putting a process in place for the new President and Presidential candidates.

Chairman Lavery stated that they will have the President's evaluation in closed session.

Trustee Smith suggested having an Ad Hoc committee to compile the information and developing a process to present to the Board for consideration.

Chairman's Report - Mutual Commitments

Chairman Lavery presented the Board with an abbreviated Mutual Commitment document to be placed in the Board room. He stated that in order to get the Commitment document matted and framed, a condensed version had to be used. He stated that he felt the new Board members should be included, to make sure they are in agreement with the Mutual Commitments before moving forward with framing it for the Board room.

Trustee Smith stated that there has been a lot of labor done by the seated Board members and that out of respect for the work that has been done, the Board should move forward. She stated that the new Board members should be versed on what the Mutual Commitments are.

Trustee Pelleran agreed with Trustee Smith.

The H.O.P.E. Scholarship Program offers Lansing School District youth an opportunity for a college education and a brighter future. Students are initiated into the program as sixth graders. Overview of the H.O.P.E. Scholarship Program

What is the H.O.P.E. Scholarship Program?

The H.O.P.E. (Helping Other People Excel) Scholarship Program was launched in 2001 as a crime prevention and education initiative that offers Lansing School District youth an opportunity for a college education and a brighter future. Students are initiated into the program as sixth graders. Students promise to finish high school in exchange for two free years of tuition, books and fees at Lansing Community College. (Note: The amount of a scholarship will vary depending on what the student decides to study, number of credits, etc.) The program is a partnership between the Lansing Police Department, Lansing Community College (LCC), Michigan State University, Lansing School District (LSD), City of Lansing, YMCA, and local businesses and private citizens who donate to the program. As of November 2007, there are 3,000 H.O.P.E. scholars, with 500 new scholars being added every year.

What are the requirements to be eligible?

Students must graduate from high school, complete the LCC admission process, file a financial aid form and meet with LCC financial aid personnel, and enroll in courses the fall semester after graduating from high school. Students are chosen by their school, based on their ability and need to utilize the program.

How are the scholarships funded?

All other federal and state financial assistance must be used before H.O.P.E. scholarship funds are used. Based on the population of students being targeted for H.O.P.E., most of them are likely to qualify for Pell, which is a need-based federal grant. H.O.P.E. funds have to be used before the state's Tuition Incentive Program (TIP) can be tapped. Lansing Police Chief Mark Alley is working with a lobbyist to change the TIP language so that H.O.P.E. scholarship dollars can be used last.

How many Lansing School District students are eligible?

As of November 2007, 147 seniors are still in the district and moving toward graduating in June 2007 for possible enrollment at LCC in fall 2008. The other 353 students in the 2001 H.O.P.E. Scholars cohort of 500 have left the LSD for various reasons and could still be eligible for the program as long as they have met the criteria. LCC and LSD staff are in the process of identifying those individuals and developing a communications plan for informing students, parents, and school personnel what needs to be done to access the program dollars. (See attached H.O.P.E. Scholarship Compact)

What are the enrollment requirements for H.O.P.E. scholars?

H.O.P.E. students are subject to the same LCC enrollment requirements as others. The difference is that LCC works with the LSD H.O.P.E. Coordinators to walk students and parents through the process and provides special methods of communicating to inform parents and students of existing systems. LCC is currently admitting seniors and will continue to have them complete the admissions application throughout the school year. LCC has a priority date of May 1 to have the students complete the federal financial aid process with assistance from LCC staff.

How many H.O.P.E. scholars are currently enrolled?

LCC has admitted about 20 students to date, with another 20-30 applications to process. Students will not enroll in classes until this summer.

How many scholarships are available?

The H.O.P.E. Scholarship Program commitment is to provide funding for *all* H.O.P.E. scholars who meet the eligibility requirements.

November 2007

Lansing Community College – Board of Trustees

Agenda Item: Identity and Access Management

Presented for Action

PURPOSE

Lansing Community College presents for approval a Pre-award Transmittal Document for Identity and Access Management.

BACKGROUND

This request is for approval to award the contract to the vendor with the most advantageous proposal to the College, meeting all required specifications, Mycroft Talisen Inc. LCC has experienced difficulties with identity and access management under both previous ERP systems. The College is currently in the middle of migration to a new ERP system and many of the interfaces of the existing provisioning system will need to be written and/or modified. A new identity and access management system will resolve the following issues: (1) Eliminating duplicate records (e.g. students have only one id in the system); (2) Ease with which people can gain access to the system will be improved; (3) Taking social security numbers completely out of the identity and access management system; and (4) Deprovisioning of accounts, especially employee accounts for those no longer with the college. Additionally, Neohapsis Information Security Program assessment completed in 2004 recommended additional password and account controls. A new identity and access management system would provide this assurance.

IMPLICATIONS

Financial

The evaluation committee recommends award to Mycroft Talisen Inc. for \$130,000 for Phase 1. The first phase will consist of assessment and requirements definition to align the technical requirements to the College goals. The phase one assessment and requirements definition will assist the College to properly scope the Identity and Access Management project and identify budgetary and technology (hardware and software) resource requirements. Project Title: Identity and Access Management

Proposal Opening Date: November 12, 2007

1. Description of Supply or Service:

Lansing Community College is seeking a vendor to upgrade its homegrown identity provisioning system with a new identity management system to provision user account information into the college's application systems and to enable a single sign-on infrastructure within our college portal. The College is in the middle of migration to a new ERP system and many of the interfaces to the existing provisioning system will need to be written and/or modified. The College is interested in using the Oracle Identity and Access Management products to provide this new system. Oracle IAM products have many of the characteristics that LCC wishes to develop in the new Identity and Access Management (IAM) infrastructure.

An Identity and Access Management system is a requirement of any security program. The College is required to administer the access systems of the college to protect the confidentiality, integrity and availability of all college systems. The requirements are defined in Federal and State laws and contractual agreements such as FERPA, GLBA, HIPAA and PCI DSS. The College information security program follows the control standards defined by ISO17799, and access controls and access monitoring are major sections of that standard. The Neohapsis Information Security Program assessment completed in 2004 recommended additional password and account controls.

The new IAM system must be able to automatically provision accounts based upon activity within the SunGard Banner ERP system. The system must be able to assign access rights to resources within the various systems based upon a security role or attribute. For example when a student is admitted to the college, the identity management system should recognize this event and provision a portal account with the access rights assigned for a student.

The selected vendor will perform professional services in a phased approach. The first phase will consist of assessment and requirements definition. The selected vendor will align the technical requirements to the College goals. The phase one assessment and requirements definition will assist the College to properly scope the Identity and Access Management project and identify budgetary and technology (hardware and software) resource requirements.
