Articulation Agreement between Lansing Community College and Brooks Institute

The purpose of this agreement is to facilitate the transfer of students graduating from Lansing Community College into the ninth session of the Bachelor of Fine Arts Degree in Professional Photography Program at Brooks Institute. The conditions and stipulations of the agreement are listed below.

1. Students must graduate from the Lansing Community College photography program with an Associates Degree in photography.

2. The student must have a cumulative GPA of 3.0.

3. Students must present an acceptable portfolio.

4. Lansing Community College students must have proven competency and knowledge of the 4 x 5 view camera. This competency will be judged via review of their college transcript of courses successfully completed and a portfolio review of their 4 x 5 camera images.

5. Lansing Community College students must have proven competency and knowledge of Adobe Photoshop software.

6. Since most students will be lacking some of the Arts, Letters & Sciences and business curriculum requirements, interested applicants are encouraged to take appropriate courses at Lansing Community College or another accredited educational institution before arriving.

7. Articulation students transferring into Brooks Institute will start in the Upper Division unless during their evaluation it is agreed to take classes in the Lower Division that cover material they have not previously studied.

8. Lansing Community College students that have taken course work applicable to Upper Division courses at Brooks Institute will have a Brooks Institute faculty member determine the applicability of those courses to requirements of our Upper Division concentrations. However, it is expected that all incoming students from Lansing Community College will spend a minimum of 10 (eight week) sessions in residence at Brooks Institute as full-time enrolled students. The courses taken in residence must include those that meet the concentration requirements (concentrations include Advertising, Commercial, Photo Media and Portraiture), and other Arts, Letters & Sciences courses and business courses to meet graduation requirements.
