

## HS-IRB Process at Lansing Community College

# HS-IRB Process at Lansing Community College

## Image Description:

The process begins with the question: "**Is this human research?**"

- **If No** → The project is **Out of HS-IRB Purview**.
- **If Yes** → Proceed to the **HS-IRB Application** step.

## **HS-IRB Application box includes:**

- Completion of required training
- Preparation of necessary documentation
- Submission to **lccirb@star.lcc.edu**

## **Three Review Paths:**

1. **Exempt Research** – Reviewed by IRB Executive Staff. Some exemptions may require limited Board review.
2. **Non-Exempt Research** – Requires **full board review**, subject to the board's meeting calendar. Materials must be submitted **at least one week prior** to the meeting.
3. **Expedited Review** – Reviewed by IRB Executive Staff.

**Note:** If questions arise for the Review Board at any stage, the research will move to the **Non-Exempt path** and follow the board's meeting schedule.

**Final Step:** After review, a **HS-IRB Determination** is made. A decision letter is sent to the researcher within **10 business days**.
