

## **Questions to help you think about your teaching/service methodologies**

- How do I organize the material?
- What ways do I present material (i.e., lecture, discussion, case study)?
- How do I appeal to various learning styles?
- How do I incorporate cooperative/collaborative learning?
- What I do inside and outside of class to create a positive learning environment?
- How do I build rapport with my students or prospective students?
- How do I encourage and/or motivate my students?

- If someone were to walk in on my class or worksite, what would they see happening?
- What learning activities do you use?
- How do you structure your class/meeting sessions?
- How do you engage students in learning?
- How do you generate discussion?
- How do I know they are “getting it” (formative assessment)?
- How do I evaluate my students’ learning (summative assessment) ?
- What do I ask my students to read/write?

- What kinds of exams/projects do I use?
