MAKING RECOVERY SIMPLER

Michael suffered a mild heart attack and was later diagnosed with coronary artery disease and high blood pressure.

After being discharged from the hospital, he felt overwhelmed with unfamiliar information and a multitude of instructions. Concerned about the recovery process, Michael called ComPsych® HealthChampion and spoke with an RN specialist who explained how these disease processes develop. She also provided more information on his new prescriptions and necessary changes to his lifestyle.

Since Michael had been unable to work during his recovery, he became concerned with his finances when some of his therapy and follow-ups required a portion of payment upfront.

The HealthChampion claims and benefits advocacy specialist informed Michael’s doctors of his tight financial situation and they agreed to provide services without collecting any prepayment. The HealthChampion team was there for Michael with information and help with administration, so he was able to focus his time on recovering and taking control of his health.
