

## CLARITY BENEFITCONNECT

### CONNECTING EMPLOYEES TO AN EASIER WAY TO BENEFIT.

You've given your employees the best plans, now give them the technology that they need to support them, especially as we get back to normal life. Clarity BenefitConnect is a convenient, easy-to-use tool that syncs employees' medical, dental and vision insurance carriers to their Clarity Benefit Accounts to streamline either claim submissions or debit card substantiation so they can focus on their health, not submitting claims, receipts, and Explanation of Benefits (EOBs).

### LESS PAPERWORK, LESS HEADACHES, MORE BENEFITS THAT KEEP YOUR EMPLOYEES HAPPY AND HEALTHY.

It's never been easier for employees to benefit from their FSA and HRA plans. Clarity BenefitConnect links insurance carriers directly to Clarity, providing employees a better, more seamless experience. Employees enroll through a simple registration process in the Clarity portal. Once they're logged in, Clarity BenefitConnect automatically harvests EOBs and claim details, integrating with our Benefits Administration system and automating substantiation and reimbursement. All they have to do is login once—we'll take care of the rest.

#### SIMPLE

Getting started is easy. Employees select their carriers and provide their login information for each one!

#### SECURE

We know security is everything, especially when it comes to personal information. All of your employees' information is encrypted and securely transferred.

#### SMART

Once connected, your employees' claims data is automatically sent to Clarity BenefitConnect when they receive services covered by their insurance...virtually eliminating the need to submit receipts and EOBs.

## ARE YOU AWARE OF ALL THE WAYS BENEFITCONNECT BENEFITS YOUR EMPLOYEES?

### DEBIT CARD PURCHASES

Minimize the need to submit receipts by automatically substantiating card swipes.

### HRA & FSA PLANS

Automatically track deductibles and eliminate the need to submit claims and receipts.

### HSA PLANS

Receipts for medical expenses and EOBs can be stored automatically in employees' accounts.

### MEDICAL EXPENSE FORECASTING

By tracking all employee FSA and HSA EOBs we can help them easily forecast their estimated annual medical expenses.

## HOW DOES IT WORK?

- Connect employee plans on the Clarity Portal to submit the login credentials for your insurance
- When employees pay for a medical, dental, or vision expense with their Clarity Benefit Card, BenefitConnect will match the EOB with their card swipe eliminating the need to submit a receipt.
- If an insurance claim is eligible for reimbursement through one of your employees' Clarity Accounts, BenefitConnect will prepare and submit their claim using an EOB from the insurance claim as documentation!

## USING BENEFITS HAS NEVER BEEN EASIER FOR EMPLOYEES

- Minimize the need to save or send in receipts
- Save hours of time on the phone with carriers for claims and EOBs
- Track deductibles and insurance claims status in one place
- Get eligible expenses substantiated automatically
- Never worry about a Clarity Benefit Card getting turned off again
