LCC Counselors provide training during Professional Activity Days

LCC Counselors provided a training to colleagues during Professional Activity Days on how to recognize and refer troubled students. Mental health crises are on the rise, and the counselors helped faculty and staff learn how to better identify students who are in need of mental and emotional support, how to strategically and sensitively de-escalate a student in crisis, and how to refer a student to LCC's Behavioral Intervention Team and/or LCC's Counseling Services.

LCC Counselors educate first responder students on vicarious traumatization

LCC Counselors visited the 65 students of LCC's Nursing Program and the 20 students of the Fire Academy to talk about the realities of exposure to trauma while working as a first responder. They educated students on what they can do as professionals to not only identify and address their own vicarious traumatization as a result of their work, but also how to make appropriate referrals to mental health services for the people they serve. Students were also encouraged to utilize LCC Counseling Services themselves to manage any trauma they may encounter in the course of their educational training.

Scholarship Winners

The LCC Dental Hygiene Program is proud to announce that in Dec. of 2022, year 1 student Rickia Swinton (Class of 2024) received a \$1000 scholarship from Browngirl RDH. In addition, year 2 students Olivia Bliss and Elizabeth Scott (Class of 2023) received \$1500 scholarships from the Michigan Dental Hygiene Association's (MDHA) Dorothy B. Leshner scholarship in Jan. 2023.

Nursing Program – Giving Closet

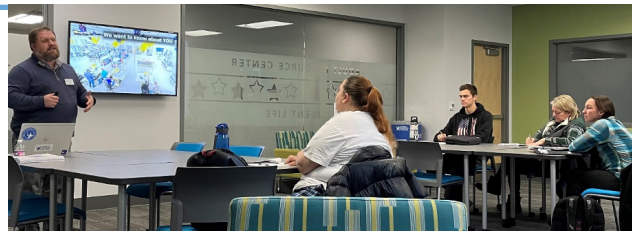

A 3 a.m. idea came to fruition this week! It was brought to the attention of several faculty members that our nursing students were not eating before coming to campus – and then continuing to not eat while they were on campus. Understanding that students aren't always able to buy from vending machines or pay for food from off-campus sources, a faculty member approached the Student Nurses Association (SNA) with an idea that came to her in the middle of the night. The members of the SNA Executive Board jumped into action with the idea of an SNA Giving Closet. The giving closet contains snacks, such as granola bars, fruit snacks, trail mix and cheese and crackers. It also contains easy meals like macaroni and cheese, Chef Boyardee meals and noodle cups. These items are free for nursing students. If faculty members become aware of a student that needs a pick-me-up or a quick snack, they are able to provide it. We all know that when students have something in their stomachs, they are able to focus and concentrate better. SNA will monitor the items in the Giving Closet and keep it stocked throughout the semester.

Welcome Week Spring 2023

On Tuesday Jan. 10 academic success coaches and Career/Employment Services teamed up with to create a Welcome Back Week table. They were in the Gannon Highway in the morning with coffee, bagels and success tips, and were available to answer questions and help students find their classes. There was also a hot cocoa bar set-up in the Career Center. About 47 students came by during this session.

During the first week of spring semester, the Center for Student Support participated in this event to welcome new and returning students. Students received free school supplies, t-shirts, popcorn, snacks and department resource information to help them prepare for a successful beginning to the 2023 spring semester.

2022-2023 LCC Scholarship Workshop Series

Students were invited to attend virtual informational workshops on scholarships available through Lansing Community College. They learned about the scholarship process and how to complete the LCC scholarship application. This series was co-sponsored by the Adult Resource Center, LCC Foundation and Student Life.

Career Center Open House

Career and Employment Services hosted an open house in the Career Center on Tuesday, Jan. 24. Students, faculty and staff were able to visit the Career Center to meet CES staff, schedule appointments and gather career resources while enjoying lunch and giveaways. Upbound Staffing participated in the open house to talk with students and provide resources for students with autism or other neurodiversity to find employment. In addition to faculty and staff, 77 students attended the event.

Marketing Department

Selected promotional materials for LCC events and programing.

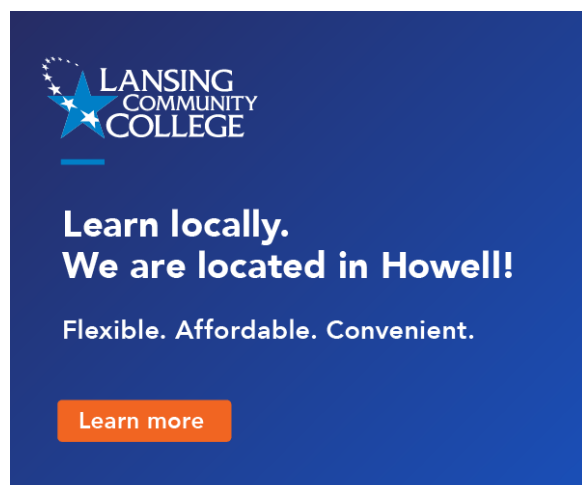

Express Advising

Marketing helped spread the word about the new Express Advising model throughout the end of fall semester and the beginning of spring. Word went out through myLCC, D2L, Top 10 email, digital signage and social media channels.

Welcome Back Week – Spring 2023

The start of spring semester was celebrated and promoted with Welcome Back Week. Activities included free popcorn, cookies, school supplies and more. Marketing supported this through digital signage, social media channels.

Livingston County Center Brand Awareness Campaign

A brand awareness campaign was launched in January for this campus. It includes a sponsorship with local radio station 93.5FM WHMI, digital ads, social ads and a new upgraded website at lcc.edu/livcen.

LCC Connect Celebrates One Year

To celebrate LCC Connect's first year of operations, a campaign ran in January to engage the community. The campaign consisted of billboards, digital advertising, an appearance on Morning Blend, a special one-year website at lcc.edu/connect_1year, swag giveaway Fridays, highlight videos, print ads in City Pulse, and announcements on all campus digital television screens.

New Year Postcard for the Foundation

Marketing created a New Year postcard for the LCC Foundation. The audience for the postcard includes Foundation volunteers, Foundation committee members and board of directors. Anyone who has donated in the last two years did also receive the postcard in the mail.

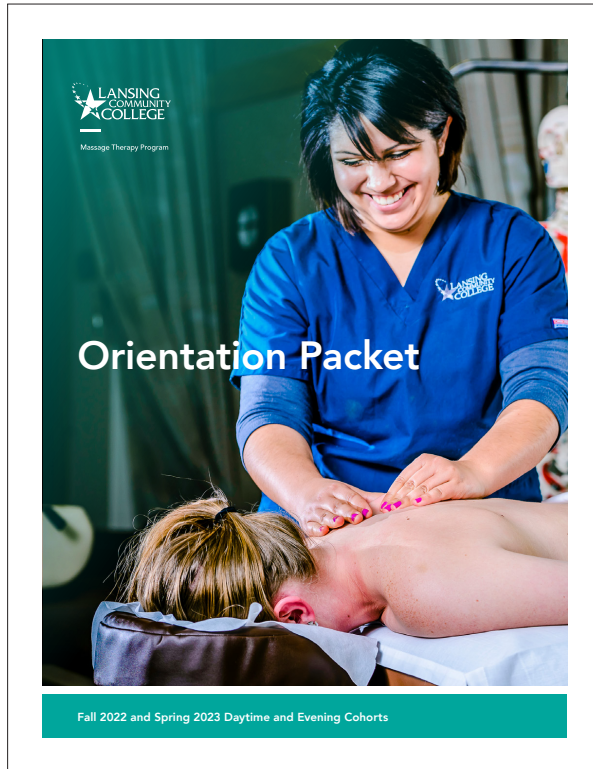

LANSING COMMUNITY COLLEGE FOUNDATION
359 N. WASHINGTON SQUARE, SUITE 201
LANSING, MI 48933

Thank you for being an important part of the lives of students and the Foundation. None of what we do is possible without you, and we appreciate the impact you make through supporting education. The Foundation is wishing you all the best in the coming New Year!

[See you in 2023!](#)

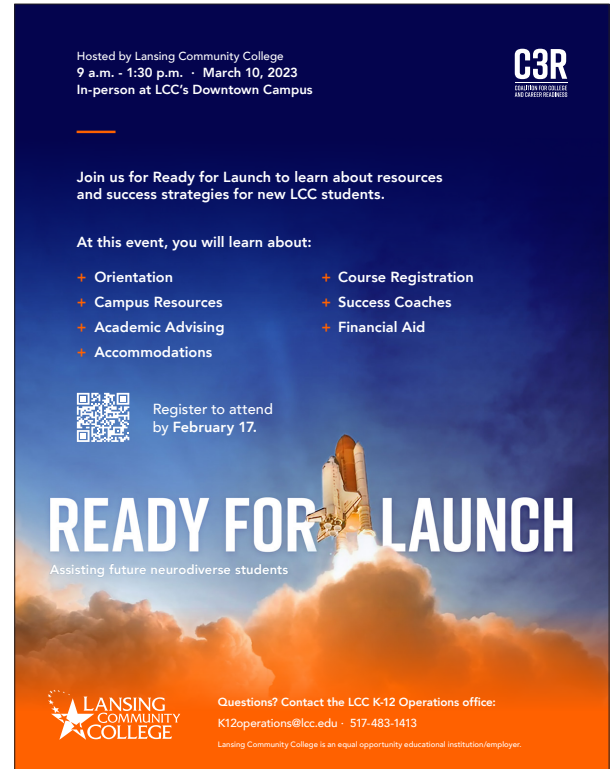

Cathy, Amber, Scott, and Ali

LANSING COMMUNITY COLLEGE IS AN EQUAL OPPORTUNITY
EDUCATIONAL INSTITUTION/EMPLOYER

Massage Therapy Lockup for Scrubs and Orientation Packet

Marketing provided a standardized lockup for massage therapy program scrubs. The program's orientation packet was revised and redesigned to meet accessibility and college brand standards.

C3R Ready for Launch event flyer

Promotional flyer for the upcoming C3R event that will focus on success strategies for assisting future neurodiverse students.

First Pitch Dinner

Marketing created promotional materials and the event program for the LCC Baseball fundraising dinner.

Computer Information Technologies professor featured by TechGuide

Maissam Khalil, a professor in LCC's Computer Information Technologies Program, was featured in TechGuide's "Ask an Expert" series. Her answers follow.

How did you first get into computer science (what kind of degree or work experience led you to the field)?

It all started in my senior year in Iraq. Everyone was talking about computers and computer science. My older brother was studying electrical engineering and would bring PC Tech magazines. I started to read about computers and Windows and found it very interesting so I asked my dad to buy me a computer and decided to go to College of Science to take a bachelor degree in Computer Science, and it was the best decision I made!

Why get a bachelor's in computer science and why now?

Computer science is like mathematics. It never gets stale. The theories, algorithms and principles you learn are the basis of whatever technology you like to learn. It is the foundation you need to build upon other IT skills.

What's the best way for students to prepare for a bachelor's in computer science? What kinds of skills or knowledge do they need to be successful?

Passion and will to learn! If you're the type of person who likes challenges and doesn't get frustrated easily, this is the thing for you.

What kinds of other topics, electives or majors fit well with computer science?

Many of the engineering fields fit well with computer science and use some of its concepts, such as software engineering and electrical engineering. The mathematics field is another good fit.

What computer science topic are your students interested in right now?

Some students show interest in learning more about data structures and algorithms since many technical interview questions are related to them.

What types of jobs are computer science graduates finding? Is there a favorite company or organization where students like to look for a job? What do entry-level computer science jobs look like?

Some employers give exciting opportunities to our students to gain entry-level positions, such as data scientist, business analyst or software developer. Additionally, the college has an apprenticeship program that matches the students with an employer. If they do well during the internship, they may get an offer.

If you had to choose one or two books, articles, documentaries, podcasts, etc. to be included on a required reading list for computer science students, what would it be?

"Operating System Concepts," by Abraham Silberschatz, Greg Gagne, Peter B. Galvin. I studied this book during college and used it when teaching operating systems. This is one of the best books of all time, and a great reference.

Microsoft Docs. I always tell my students that if they want to get free technical documentation, they need to use Microsoft Docs. They have a huge number of documents and tutorials for different programming languages and tools. It is comprehensive, updated, and has free materials coming directly from the vendor. It can't get better!

LCC awarded grant from General Motors

LCC has been awarded a \$40,000 grant from General Motors to conduct a workforce development study that will assist the college in designing new curriculum to teach advanced manufacturing techniques.

LCC is one of seven community colleges nationwide to receive the funds. The college has enjoyed a strong partnership with the automaker for over 65 years. There are several LCC students who are currently in apprenticeships with GM.

This grant further solidifies the commitment LCC has to ensure that we are preparing students with the skills and training necessary for success in modern manufacturing.

Medical Assistant Faculty Presents on Registered Apprenticeships at AACC Conference

Dr. Diane Roose was at the AACC (American Association of Community Colleges) Workforce Development Institute Conference Jan. 18 – 21, 2023 and participated as a panel presenter discussing registered apprenticeships. Her focus was, that the DOL standards for registered apprenticeships do not always work for short term certificate programs, or pair well with employers' urgency for employees with those skill sets.

On Monday, Jan. 23 the Nursing program hosted nine guests from Korea. This was a collaborative effort with MSU Institute of Global Health to expose nursing students to nursing here in Michigan. The eight nursing students along with Professor Jung from Daedong University's Nursing Program toured LCC's nursing skill labs, participated in scenarios with the high-fidelity SIM manikin, and learned about the interactive Anatomage table. The team spoke with Interim Clinical Coordinator Shannon Scott on curriculum and student support initiatives the program has incorporated to help students be successful in the program and clinical rotations. The students received presentations from our SIM educator and nursing lab instructors. Associate Director Chung from MSU IGH emailed: "please convey our deepest gratitude to your students for their warm welcoming of our Korean students. Hopefully we can have more interaction with both sides."

Conference Services report of January events

Downtown Campus

Jan. 4

Health and Human Services Kick Off

HHS held its kickoff in the HHS garden rooms for approximately 100 people.

Nursing Kick Off

LCC Nursing held its spring kickoff in the HHS garden rooms for approximately 50 people.

Jan. 6

Rotary

Rotary held its weekly meeting in the Michigan room for 75 people.

Jan. 9

Nursing Orientation

Nursing 231 & 232 held a joint orientation for 100 students.

Jan. 13

Rotary

Rotary held its weekly meeting in the Michigan room for 75 people.

Jan. 18

Coffee EDU

Michigan Archaeological Society

Jan. 20

Central Michigan University Event

CMU hosted Michigan College Access Network in the University Center with 45 people in attendance.

Rotary

Rotary held its weekly meeting in the Michigan room for 75 people.

LCC Police Dinner

LCC Police hosted its annual dinner and awards in the Michigan room with 57 people in attendance.

Jan. 23-24

HR and AFT Evergreen

LCC Human Resources hosted Evergreen who presented to LCC AFT members in the Grand River and Michigan rooms.

Jan. 25-26

FY 2024 Budget Launch

Financial Services held two training sessions in the administration boardroom for approximately 50 people.

Jan. 26

Healthy Stars Kick Off Challenge

About 50 LCC employees gathered in the Michigan Room to kick off another yearly challenge. Weights and measurements were gathered and discussed with each participant.

Jan. 27

Michigan Community College Foundation Executive Directors Meeting

LCC Foundation hosted the MCCF meeting in the Grand River room for 20 people.

West Campus

Jan. 4

LCC Technical Careers Kickoff

Tech Careers hosted its spring 2023 kickoff in the conference rooms for approximately 80 staff members and instructors.

Jan. 10-14

MI Department of Health and Human Services (MDHHS)

MDHHS, in conjunction with the Michigan Public Health Institute, utilized the parking lot at West Campus to park its mobile testing unit. The testing unit tests for chemicals in the blood of community members who may have been exposed on their work site.

Jan. 12

MI Department of Natural Resources (DNR)

The MI DNR hosted its first Natural Resources Commission public hearing of the year, for 12 board members and approximately 30 community members in the conference rooms. The group will return eight additional times in 2023.

Jan. 17

567 Workshops

Hosted an estate planning workshop for 30 community members in a conference room.

Jan. 17-21

MI Department of Health and Human Services (MDHHS)

MDHHS, in conjunction with the Michigan Public Health Institute, utilized the parking lot at West Campus to park its mobile testing unit. The testing unit tests for chemicals in the blood of community members who may have been exposed on their work site.

Jan. 18

MI Rural Water

Hosted its annual computer-based training for 20 employees in a computer lab and classroom.

Jan. 19-20

MI Community College Association (MCCA)

MCCA hosted the follow up sessions to its Leadership training in a conference room for 36 participants, including 2 LCC employees.

Jan. 20

MI Department of Health and Human Services (MDHHS), Bureau of Emergency Management Services (EMS)

MDHHS Bureau of EMS hosted its first public board meeting and hearing of the year, in 3 conference rooms for 24 board members and approximately 20 community members. The group will return 8 additional times in 2023.

Jan. 23

LCC Technical Care

Tech careers hosted a tour and meet and greet for local industry partners and the Capital Area Manufacturing Council. About 40 people were in two conference rooms.

Jan. 25-26

MI Rural Water

MI Rural Water hosted its annual computer-based training for 20 employees in a computer lab and classroom.

Jan. 25

MI Department of Labor and Economic Opportunity (LEO)

The MI department of LEO hosted the first of four leadership development training courses scheduled at west campus this year. Approximately 100 people attended the training in the conference rooms.

Jan. 26

LCC Coalition for College and Career Readiness (C3R)

C3R hosted the annual spring summit in the conference rooms for approximately 80 people.

Jan. 26

MI Department of Licensing and Regulatory Affairs (LARA)

MI Dept. of LARA hosted their first of four board meeting and public hearings at West Campus in 2023. The event was live streamed by the LCC Media team and was attended by 7 board members and approximately 20 community members.\

Delta Dental Foundation Grant

LCC Dental Hygiene Program received a \$28,574.00 grant from the Delta Dental Foundation on December 27, 2022. This money will be used to pay for four new radiography chairs in the program's radiography rooms, a mobile dental chair, a hand-held radiography machine and several intra-oral cameras.

Small Business Development Center (SBDC) Impact Metrics – Jan. 1-31, 2023:

Consulted with 81 business clients to start or grow their businesses

- + Delivered a total of 229 consulting hours
- + Helped those clients secure \$1,372,003 of new capital to launch or grow
- + Helped create four new businesses
- + Helped create 16 new jobs

SBDC participates in Black Wallstreet

SBDC Senior Business Consultant Darryl Horton participated in the Black Wall Street Network Mixer held at Gregory's Soul Food. The event is held monthly and allows small business owners and entrepreneurs in the community to network and share valuable experiences, as well as to celebrate the Entrepreneur of the Month. At this event, WalkWorthy Menswear owner Aondray Worthy was selected as January's Entrepreneur of the Month. The event was well attended.

SBDC presents “Next Steps – Is Brick and Mortar Right for You?” on Jan. 10

Taking a business to the next level can be challenging, especially when the owners are opening their first physical location. However, knowing the steps needed to open a location can help decide whether it's a smart move or not. SBDC co-hosted “Next Steps – Is Brick and Mortar Right for You?” to the Middle Village Merchants and public attendees. Speakers also included Downtown Lansing Inc.'s Julie Reinhardt and Lake Trust Credit Union's Justin Haun. They talked about all considerations someone must review when thinking about opening their first physical location.

Pictured: Melissa Terry and Millie Chu

BSBDC client testimonial: Lotus Beauty Lounge

“I was a part of the LEAP One and All program and that introduced me to Millie (Chu), who is the business consultant with the Small Business Development Center at Lansing Community College. I felt like I could ask her a question about any aspect of my business and she had an answer for it. I had questions about how to establish my business credit, and she was able to give me a layout of things I needed to do in order to make that happen. And she also gave me information on how to pitch my business to different people. So I was able to get a news article from Channel 6, and they did a story about my second business that I launched. The best benefit of being involved with the Michigan Small Business Development Center is being able to be connected with consultants that have great information that can help thrive your business.”

[Video link](#)

SBDC welcomes Inclusion Consulting Team

The SBDC is thrilled to welcome three new contract consultants: Sein Paul Benavides, Oscar Castañeda and Janet Atkinson. Benavides does outreach to Hispanic businesses, Castañeda provides Spanish interpretation for consulting sessions, and Atkinson offers confidential business consulting to all underrepresented businesses. This includes people of color, women, individuals with disabilities, military veterans, and racial or ethnic minority groups.

The SBDC's goal is to connect with more business owners who are unaware of our services, provide cultural context to deepen trust in working with SBDC, and assist owners with the resources to start, grow and successfully operate their businesses.

Janet
Atkinson

Sein Paul
Benavides

Oscar
Castañeda

LCC East and extension centers connect with students and community

LCC East worked with LCC's Global Student Services and MSU's Office of International Students and Scholars to transfer 14 recessed international students to LCC for the spring semester. This involved transferring students' I-20 documents to LCC and selecting late start classes, most of which are face-to-face at LCC East.

The LCC East Coordinator appeared on the Fox 47 Morning Blend show to raise awareness of the courses and services offered on East Campus. LCC East also hosted a Power Hour with the Provost in December and the kick-off meeting of the Community Education and Workforce Development Division in January. Michael Gilreath made a wonderful presentation on the principles of LEAN.

The extension centers conducted telephone calling campaigns to encourage current students to register for the spring semester.

The LCC East coordinator conducted tours of the LCC East building for a faculty member, a success coach, and a representative of the Michigan Community College Association.

Lifelong Learning's Youth Program provides classes at Mason

The LCC Youth Program continues to provide afterschool classes at Mason Public Schools.

During fall 2022, six STEAM-related classes were offered to students in second through fifth grades. Classes included robotics, painting, wildlife exploration, music video production, physics and superhero comics. Afterschool classes are offered at both the Harvey Education Center and Mason High School.

Fifty students enrolled in these classes

Business & Community Institute trains hotel leadership team

The Business & Community Institute (BCI) provided customized training to the Crowne Plaza Lansing West. The training was tailored to the specific needs of the executive leadership team, including communication, trust, coaching, company vision and time management. Through a variety of activities and materials, participants built upon existing strengths and discovered new strengths in order to accelerate their leadership potential.

BCI provided Excel training to Koppert Biological Systems

Koppert Biological Systems selected the BCI to deliver 12 hours of Microsoft Excel II training. This training used advanced formulas and worked with various tools to analyze data in spreadsheets. Participants also learned how to organize table data, present data as charts, and enhance the look and appeal of workbooks by adding graphical objects. The hybrid training was hosted at West Campus, with employees from California participating.

BCI provides coaching to Partner Solutions

The BCI provided coaching in the area of managing and documenting performance to Partner Solutions. Management learned that whether individuals are high performers, barely meeting expectations, or somewhere in between, employees can make a greater contribution. By setting and communicating clear performance goals and managing performance along the way, management can help employees achieve goals or resolve problems sooner rather than later. Additionally, when performance is not meeting expectations, it is extremely important that interactions with the employee be documented properly and clearly. This can motivate the underperformer to find more suitable employment when termination does become necessary, and can avoid or mitigate legal action. All items were explored in-depth in a coaching environment.

BCI provides LMS development to REV Group Spartan Fire Chassis

REV Group Spartan Fire Chassis contacted the BCI to develop a new hire training program for core production tasks. The BCI is developing a customized, LMS-compatible video and PowerPoint with voiceover to provide the solution for new hires, allowing every new hire to receive consistent and relevant training.

Barb Clauer and Melissa Kaplan presented at Writing Innovation Symposium

English Prof. Barb Clauer and Academic/Arts Outreach Coordinator Melissa Kaplan were plenary speakers and workshop leaders at the Writing Innovation Symposium (WIS) held Feb. 2-3 at Marquette University in Milwaukee.

Using the LCC Community-Generated Poetry Project process and principles, Barb and Melissa guided attendees in exploring the challenges of trauma-informed teaching and learning through collaborative poetry composing. The resulting poems were transformed into plays by The Comet Project Players, a Marquette U student theater troupe who then performed the poem plays at the symposium's closing session. WIS attendees included English, Rhetoric and Library faculty, staff and graduate students from Milwaukee area universities and colleges around the country.

The follow-up workshop focused on creating collaborative multidisciplinary community-building programs using "Please Stay: A Call for Suicide and Depression Awareness and We Shall Overcome: Raising Our Voices Together" as examples, and provided guidance on using community-generated poetry and multidisciplinary connections for classroom learning and community-building.

Barb and Melissa were invited to be WIS 2023 plenary speakers after their workshop at last year's conference led WIS steering committee members to envision how effectively the Poetry Project work could dovetail with the other 2023 plenary speaker, Melissa Tayles.

Tayles' research explores trauma-informed pedagogy, focusing on faculty well-being and empirically sound regulation strategies for students that may mitigate stress and trauma responses in the classroom.

Identity Management System Refresh Project completed

The LCC ITS Identity Management System (IDM) Refresh Project team completed an upgrade of LCC's IDM System on Dec. 19, 2022.

The IDM system is the backbone system with which LCC users interact when logging into accounts or resetting passwords. It ensures people have the correct authorization and access to LCC's technology resources.

The previous system was decades old and required frequent troubleshooting to remain operative. The system had many critical vulnerabilities and restricted our use of modern authentication capabilities. The new IDM system, built and configured by LCC ITS staff, reduces the architecture complexity and enables a multi-factor authentication capability for increased security.

The project was led by 15 ITS professionals and was conducted over the past five years and involved many product evaluations, pilot implementations, pivots to different technologies, weekly coordination meetings between cross-campus informational technology specialists, and complex system troubleshooting after implementation.

After holding a project "lessons learned" meeting, the team held a project completion celebration on Jan. 31. Focusing on our frustration with the old IDM system, we re-created the classic printer scene from "Office Space" and took a sledgehammer to the old IDM system!

Check out this monthly section highlighting our newest employees, who were hired last month.
