Accessing the Learning Management System (LMS)

Access “myLCC” and then click the “Work” tab. Click on the “Learning Management System” link in the Employee eToolbox. This will access the homepage of the Learning Management System. From here you can see your inbox, which lists any approvals you need to make, etc. Below that is your transcript, which is a “one-stop shopping” location for your online training courses. It shows those that you need to complete, along with those that you have completed.
