Access Training on Tablets

Log into the Cornerstone App on a tablet using the PIN from registering the device. Once logged in, your transcript will be shown and a course can be launched from that page.
Be sure to hold the tablet horizontally to view the entire course to avoid text being cut off. Note that the speed at which courses load will vary by course and by internet speed.

**IMPORTANT NOTE WHILE USING A TABLET:** Do not open attachments when taking a course on a tablet. Once the document opens, there is no way to close it unless you quit the app. Some documents may not be compatible with all tablets. View documents and attachments via the course on a PC or Mac where they can be saved or printed.
Completing the acknowledgement screen will record the course as complete.

**Completing a Curriculum:** Training modules can be completed on a tablet, however, tests and signatures need to be completed by logging into the LMS on a PC or Mac

If you have any technical issues or questions, please contact the **LCC Help Desk** at x5221
