Approval of the PQIP Process Recommendations

President Azima reviewed the PQIP Process that was emailed to the Senators. There were several in session changes made to the Program Review Questions. Provost Prystowsky discussed using the term "freshmen" vs "1st year students" and he asked if there is a better way to describe progress of students toward completion. There was discussion regarding the use of the word "program" and its definition. The Senators questioned how to analyze part time vs full time student progress/success. It was stated that Degree Works will accommodate tracking of student progress toward goals.

It was suggested by Senator Pogoncheff that we have a separate document from the questions that gives examples of how other programs have completed the process. The Senators agreed.

Action Items: The Senate voted to accept the recommendations to Provost.

Adjournment: The meeting Senate adjourned at 10:00 am.
